	New	Windows Vista Business
	New	Windows Vista Business x64
	New	Windows Vista Home
	New	Windows Vista Home x64
122887 - MS13-014 - Vulnerability in NFS Server Could Allow Denial of Service (2790978)	New	Windows Server 2008 R2 x64
122888 - MS13-020 - Vulnerability in OLE Automation Could Allow Remote Code Execution (2802968)	New	Windows XP

How to Apply V-Flashes

Hercules customers can use the Hercules Administrator to manage review/manage their V-Flash updates. V-Flash update can be performed on demand or on a scheduled basis. To perform a V-Flash on demand, go to the Operations Center and click on the V-Flash tab. Then click on V-Flash Now. The progress will be indicated on the screen (refresh may be required). Settings can be modified by clicking the V-Flash Settings button and modifying for the desired day interval and time and clicking OK. For full details on V-Flash, consult the "Manage V-Flash Server Operations" section of the Hercules User's Guide.
