

McAfee Endpoint Encryption Essentials Course

Education Services eLearning course

The McAfee® Endpoint Encryption Essentials course from Education Services provides attendees with hands-on training on the design, setup, configuration, and management of these appliances. In addition, students will understand how to effectively implement the appliances in a complex enterprise.

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.
