

McAfee® ePolicy Orchestrator (ePO) Essentials Course

Intel Security Education Services eLearning Course

The McAfee ePolicy Orchestrator Essentials course from McAfee Education Services provides attendees with hands-on training on the design, setup, configuration, and management of these appliances. In addition, students will understand how to effectively implement the appliances in a complex enterprise.

Course Goals

- Install ePO
- Configure policies and deploy using McAfee Agent
- Configure automatic responses
- Perform basic troubleshooting of ePO

Agenda At A Glance - 8 hrs

- Module 1: Product Overview and Architecture
- Module 2: Installation
- Module 3: Initial Configuration
- Module 4: User Accounts and Permission Sets
- Module 5: Creating and Populating the System Tree
- Module 6: Repositories and Product Management

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.
