

# McAfee Network Data Loss Prevention Essentials Course

## Education Services eLearning course

Safeguard critical data and help ensure regulatory compliance with McAfee® data protection solutions. Available individually or in suites, McAfee Endpoint Encryption and McAfee Data Loss Prevention (McAfee DLP) solutions provide multilayered protection for your data regardless of where it resides—on the network, in the cloud, or at the endpoint. As an integral part of our integrated and connected security system, McAfee Data Protection solutions are fully integrated with McAfee® ePolicy Orchestrator® (McAfee ePO™) software, which unifies and simplifies data security management for a wide range of McAfee enterprise security solutions. Confidently prevent data loss, stay ahead of threats, and manage data protection efficiently and effectively.
