

McAfee Drive Encryption 7.2 Essentials

McAfee® Education Services eLearning Course

The McAfee® Drive Encryption 7.2 Essentials course from McAfee Education Services provides attendees with interactive training on the design, setup, configuration, and management of encryption software. In addition, students will understand how to effectively implement the software in a complex enterprise.

Audience

System and network administrators, security and support personnel, auditors, and/ or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of encryption principles.
