

McAfee Expert Rules Creation

McAfee® Education Services Instructor-Led Training

Building on the McAfee® Endpoint Security Platform, ENS-Expert Rules allows the advanced McAfee Endpoint Security administrator to add deeper security to their McAfee Endpoint Security Deployment.

The program provides insights into McAfee’s proprietary syntaxes and an advanced view into Operating System concepts and references, needed to better understand how McAfee Endpoint Security works, and fully comprehend how McAfee’s Expert Rules can provide a more customized and secure environment.

Earn up to 40 CPEs after completing this course.*

* Student must self-report for CPE credits. We cannot guarantee any specific quantity, as it is up to the program or certification group to determine what they will or will not accept.
