

McAfee ePolicy Orchestrator 5.9.0 (On-Premises) Essentials

McAfee® Education Services eLearning Course

The McAfee® ePolicy Orchestrator® (McAfee ePO™) Essentials eLearning course from McAfee Education Services provides training on the design, setup, configuration, and management of this software. Students will also learn how to effectively implement and troubleshoot McAfee ePO software in a complex enterprise.

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.
