

McAfee File and Removable Media Protection Essentials

McAfee® Education Services eLearning Course

The McAfee® File and Removable Media Protection 5.0.1 Essentials course provides an introduction to the McAfee File and Removable Media Protection product and its integration with the McAfee® Network Security Platform and the McAfee® Web Gateway.

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of managing remote clients from a central location.
