McAfee IaaS and Container Security Training Essentials

McAfee® Education Services eLearning Training

The McAfee® IaaS and Container Security training course provides an overview of how McAfee® MVISION Cloud extends its security controls beyond Security-as-a-Services (SaaS) and Platform-as-a-Service (PaaS) to help organizations secure their Infrastructure-as-a-Service (IaaS). This course also covers the fundamentals of McAfee IaaS and Container Security and MVISION Cloud's role in securing data within containers.

Course Goals

- Explain how MVISION Cloud secures IaaS platforms
- Explore McAfee IaaS and Container Security and Posture Management
- Describe the Shift Left model
- Explain steps to protect data in storage accounts
- Describe nano-segmentation and Zero-Trust concepts
