

McAfee MOVE AntiVirus 4.8 Essentials

McAfee® Education Services eLearning Course

This course will provide a background in interface and functions of McAfee® Management for Optimized Virtual Environments AntiVirus (McAfee® MOVE AntiVirus) 4.8. Topics covered in this course include general information about the product, setup and configuration, rules and policies used in McAfee MOVE AntiVirus, and some troubleshooting tips for the product.

Audience

System and network administrators, security personnel, auditors, and/ or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services. It is also recommended to have working knowledge of McAfee® ePolicy Orchestrator® and virtual network environments.
