

MVISION Cloud Essentials Training

McAfee® Education Services eLearning Course

The McAfee® MVISION Cloud Essentials Training provides an overview of the MVISION Cloud product and introduces you to the basic concepts of using the product for SaaS services. It also covers the sanctioned IT services, mainly Microsoft Office 365 and “Shadow IT” services.

Audience

System and network administrators, SOC teams, and incident management personnel should take this course.

Recommended Pre-Work

It is required for the students taking this course to have knowledge of basic cloud fundamentals and terminologies. It is also recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.
