

McAfee MVISION ePO Overview

McAfee® Education Services eLearning Course

The McAfee® MVISION ePO™ Overview course from McAfee Education Services provides attendees with basic knowledge to support McAfee MVISION ePolicy Orchestrator® (MVISION ePO) software. In addition, students will learn the benefits of running MVISION ePO software in their environment, basic configuration and best practice information, and Protection Workspace functionality. This course is approximately two hours in length.

Audience

System and network administrators, security personnel, auditors, and/ or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services. McAfee ePO product knowledge is recommended.
