

McAfee Threat Intelligence Exchange Essentials

McAfee® Education Services eLearning Course

The McAfee® Threat Intelligence Exchange course from McAfee Education Services provides attendees with training on the design, setup, configuration, and management of the McAfee Threat Intelligence Exchange server and its components. In addition, students will understand how to perform the basic troubleshooting tasks to resolve most common issues.

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.
