Consulting and Education Services Options

McAfee® Customer Success Plan customers are entitled to the following Consulting and Education Services options, depending on their plan.¹

**McAfee® Premier Success Plan**
1. 160 hours of Consulting Services from the Solution Services and Advanced Cyber Threat Services menu
2. Four remotely delivered McAfee® Health Watch Services
3. 280 education vouchers redeemable towards Education Services
4. Unlimited eLearning site license

**McAfee® Enhanced Success Plan**
1. 40 hours of Consulting Services from the Solution Services menu
2. Two remotely delivered McAfee Health Watch Services
3. 80 education vouchers redeemable towards Education Services

**McAfee® Essential Success Plan**
1. One remotely delivered McAfee Health Watch Service
2. 30 education vouchers redeemable towards Education Services

Consulting and Education Services options will change from time to time at the discretion of McAfee, and regional availability may vary. As those changes occur, they will be updated in this document.

Your Customer Success Manager (Premier and Enhanced) or Support Account Manager (Essential) will work with you to create a plan and coordinate with McAfee® Customer Success Group (CSG) teams to schedule your Consulting and Education Services.²

---

². Consulting Service hours may be applied towards other McAfee Consulting Services. Please consult with your Customer Success Manager or Support Account Manager for more information.
## Currently Available McAfee Solution Services, Advanced Cyber Threat Services, and Education Services

### McAfee® Consulting Services

</table>
| **Technical Assessment**   | The technical assessment focuses on developing a plan and performing the assessment for a single product and includes its related operational and management capabilities. Activities include a discussion of future objectives and a review of the current configuration to identify gaps and misconfigurations and raise awareness of existing features or capabilities that could reduce operational overhead, improve product performance, or mitigate risk. Recommendations will be developed into a roadmap with prioritized, corrective action plans. | • McAfee® Endpoint Security  
• McAfee® ePolicy Orchestrator®  
• McAfee® Data Loss Prevention Endpoint  
• McAfee® Network Data Loss Prevention  
• McAfee® Data Encryption  
• McAfee® Web Protection  
• McAfee® Enterprise Security Manager (SIEM)  
• McAfee® Network Security Platform  
• McAfee® Database Security  
• McAfee® Application Control and File Integrity Monitoring | McAfee Premier Success Plan  
McAfee Enhanced Success Plan |
| **Upgrade Assessment**     | The upgrade assessment provides planning assistance to prepare you for upgrading your McAfee security solution. Prerequisites and other dependencies are identified, and you will be provided with an actionable upgrade planning roadmap. | • McAfee Endpoint Security  
• McAfee ePolicy Orchestrator  
• McAfee® Data Loss Prevention  
• McAfee Data Encryption  
• McAfee Web Protection  
• McAfee Enterprise Security Manager (SIEM)  
• McAfee Network Security Platform

- Courses are held at a public site or private classes can be arranged at your location  
- Full immersive training  
- Network with other cybersecurity industry peers | For a list of available training courses and vouchers, please visit [here](#). |
| **One-week private instructor-led training** | Same as public instructor-led training, except this is a private class for 10 people at one customer site. | For a list of available training courses and vouchers, please visit [here](#). |

4. Training method and/or product or security training may vary by region and is subject to availability.  
5. Each McAfee Customer Success Plan includes a specific number of vouchers that can be used for a variety of training methods.
About McAfee

McAfee is the device-to-cloud cybersecurity company. Inspired by the power of working together, McAfee creates business and consumer solutions that make our world a safer place. By building solutions that work with other companies’ products, McAfee helps businesses orchestrate cyber environments that are truly integrated, where protection, detection, and correction of threats happen simultaneously and collaboratively. By protecting consumers across all their devices, McAfee secures their digital lifestyle at home and away. By working with other security players, McAfee is leading the effort to unite against cybercriminals for the benefit of all.
