

Migration Table for IBM XGS and GX to McAfee Network Security Platform

IBM is exiting the network intrusion prevention arena effective December 31, 2017, with support for current clients through December 31, 2022. The table below is provided to help guide IBM XGS and IBM GX customers to an improved solution leveraging McAfee® Network Security Platform technology. McAfee recommends speaking with a McAfee Network Security Platform specialist to ensure architecture and throughput requirements are met.
