

McAfee Endpoint Encryption Essentials Course

Education Services eLearning Course

TM

The McAfee® Endpoint Encryption Essentials course from Education Services provides attendees with hands-on training on the design, setup, configuration, and management of these appliances. In addition, students will understand how to effectively implement the appliances in a complex enterprise.

Course Goals

- Install EEPC/EEMac.
- Configure policies and deploy using McAfee Agent.
- Perform basic troubleshooting of EEPC and EEMac.

Agenda At A Glance—4 hours

- Module 1: Course Introduction
- Module 2: Encryption Overview
- Module 3: Technical Overview
- Module 4: Installation

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

Course Description

Agenda At A Glance, continued

- Module 5: Configuration and Policy
- Module 6: Using Recovery Tools
- Module 7: Troubleshooting for EEPC
- Module 8: Troubleshooting for EEMAC

Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of Internet services.
