

# McAfee Network Security Platform 8.2 Essentials Course

## Education Services eLearning course

The McAfee® Network Security Platform Administration course from Education Services is an essential component of implementing a successful intrusion prevention strategy. Learn how to deploy and configure a McAfee Network Security Platform solution to protect against real-world attacks. You can immediately apply your new skills to improve protection for your business and take full advantage of your investment in our McAfee Network Security Platform.

### Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.

### Recommended Pre-Work

It is recommended that students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of internet services.

### Learn More

To order, or for further information, please call 1 888 847 8766 or email [SecurityEducation@mcafee.com](mailto:SecurityEducation@mcafee.com).

---
