

McAfee Advanced Threat Defense Essentials

Education Services eLearning Course

The McAfee® Advanced Threat Defense (ATD) 3.0 Essentials course provides an introduction to the ATD product and its integration with the Network Security Platform and the McAfee Web Gateway.

Recommended Pre-Work

It is recommended that the students have a working knowledge of Microsoft Windows administration, system administration concepts, a basic understanding of computer security concepts, and a general understanding of managing remote clients from a central location.

Course Goals

- Describe the architecture of an Advanced Threat Defense deployment.
- Describe how to install and configure Advanced Threat Defense within the Enterprise environment.
- Describe integration with the Network Security Platform and the McAfee Web Gateway.

Agenda At A Glance

- Module 1: ATD Introduction
- Module 2: ATD Hardware
- Module 3: Architecture
- Module 4: Installation
- Module 5: User Interface
- Module 6: Administration
- Module 7: ATD Concepts
- Module 8: Configuring VMs
- Module 9: Analyzing Files
- Module 10: NSP Integration
- Module 11: MWG Integration
- Module 12: Troubleshooting

Audience

System and network administrators, security personnel, auditors, and/or consultants concerned with network and system security should take this course.
