

McAfee Dynamic Endpoint Protection

Education Services instructor-led training

McAfee® Dynamic Endpoint is an integrated threat defense solution designed to combat the most evasive modern threats. In this two-day course, you will learn about the McAfee products included in this solution and how to achieve advanced threat detection and response, streamline workflows, and reduce complexity. **Earn up to 16 CPEs after completing this course.**

Audience

This course is intended for system and network administrators, security personnel, auditors, and/or consultants concerned with system endpoint security.
